

THE WORLD OVER

ROWE READ OUT OF CAUCUS

OTTAWA—The Social Credit group of the House of Commons, Friday read out of its caucus, P.J. Rowe, member for Athabasca, who has been a consistent critic of the policies of Premier Ahearn for the past year.

ORGANIST AT CORONATION

Most people would be proud to say they had been coronation organist for three kings. Sir Walter Alesh, the organist of Salisbury Cathedral, played for the coronation of King Edward VII and King George V, but when he was asked to play the third time at the Coronation of King George VI, he declined, saying he thought someone else should have the honor.

TO INVESTIGATE GAS WASTAGE

EDMONTON—The Alberta government will investigate the wastage of gas in the Turner Valley oil field under the necessity of conservation regulations. It was announced by Hon. N.E. Tanner, Minister of Lands and Mines. A system of gas quotas on production figures may be the result.

In recent months the Turner Valley field has become one of Canada's biggest oil producers.

There are 750 producing wells including one of 2600 barrels daily. If the government decides to pass conservation regulations, gas owners may be used. The object would be to maintain the gas pressure in the field as high as possible without retarding production.

PREVENTING SOIL DRIFTING

The most effective way of preventing soil drifting is the practice of strip farming along with trash covers and surface cultivation, according to the experience of the Dominion Station at Swift Current. Soil drifting is one of the most serious drawbacks to farming in most of the great plains area where the practice of summer fallowing is one of necessity followed. Various methods have been experimented with in trying to overcome soil drifting and the above mentioned one is considered the best.

IMPORTANT TO GRAIN GROWERS

It won't be long now before grain growers will be preparing spring operations and one of the first things to consider is treatment of the seed grain for smut. Experts are unanimously of the opinion that new improved Corson, standard Leston and Leston "P" are the best protection for seed against diseases. Dr. A.W. Henry of the University of Alberta says that Alberta's wheat yield could be increased by two bushels to the acre through seed treatment. He thinks the use of formaldehyde is particularly dangerous in the dry soils of Western Canada since it tends to delay maturing, predisposing plants to disease and insect attacks.

H. N. ELLIOTT, CARBON POSTMASTER FOR TWO DECADES, HAS PASSED

Carbon Resident for Almost Thirty Years

Falling to rally from a sudden heart attack, H. N. Elliott, Carbon postmaster for the past two decades, passed away at his home on Wednesday, February 17th, at about 11:00 a.m.

Deceased was in apparent good health up until Monday when he complained of illness and was ordered to bed by his physician, Dr. McFarlane. On Tuesday he appeared in somewhat better spirits, but died came suddenly on Wednesday morning.

The late Mr. Elliott came to Carbon in 1907 from Eastern Canada, taking over the Carbon Creamery from Mr. Hodgson. He operated this institution until 1914, when it was closed down. Deceased then went into the drug business with Mr. Gray, and for twelve years he was successful postmaster, which position he held up until the time of his death.

James Purves, head of Carbon's have charge of funeral arrangements.

LETTERS TO THE EDITOR

Editor, The Carbon Chronicle.

Will you kindly insert the following few remarks as find to our correspondence to which you will agree I am entitled.

First, our friend King is certainly not ignorant of the fact that the Debt Reduction Act is a valid one until proved otherwise, and that many cases are settled already on its basis.

Second, before this act was passed we had been paying the unbearable interest. The Bankers, Big Corporations, Mortgagees and others laughing at us if we asked for a reduction of the debt. Today is a different. They are willing now to make a reduction.

Third, it would take up too much of your valuable space to answer in detail friend King's remarks, and his warning to the farmers to be careful of the S.C. government.

What colossal egoism, he is forgetting the majority of the 1935 election. When S.C. swept the nation. One would think from friend King's remarks the major negotiation of the securities was a bunch of nit compounds, and only a few egotists were the wise ones.

Fourth, I need not point out that the inconsistency of friend King's remarks, read the S.C. government's excessive taxation, then allowing to the poor Carbon farmer to pay 1/3 per cent. He knows this should be a Federal government affair. Come friend King roll up your shirt sleeves, shoot S.C.

(Continued on Back Page)

OLD-TIME DANCE FEBRUARY 26

The Carbon Old Times' Ass'n is sponsoring an old-time dance, to be held in the Farmers' Exchange Hall, Carbon, on Friday night, February 26. Robinson's Post Hill Billies Old Time orchestra has been engaged to furnish the music and a real time is planned. Admission charge is \$1.00 per couple, including lunch, with a charge of 50c for extra ladies.

Plan to take in this event next Friday.

LONG YEARS AGO

February 17, 1921

Mr. Alex Bell, St. returned from Calgary today after successfully disposing of a carload of cattle.

It is reported that the "Greasy Spoon" has passed away; "unwet, unheard, unang."

Messrs. Fuller and Harper have discontinued the butcher business to Mr. Francis Owen.

Mr. Chris Johnson, who is the holder of a very valuable oil lease in the vicinity of Hasketh, has sold 40 acres.

NO BLAME ATTACHED SAYS JURY INQUIRING INTO J. TABERT DEATH

The jury inquiring into the death of Jacob Tabert, who was killed in a rail accident in Carbon on February 9, attached no blame to anyone in their verdict rendered at the inquest held in Drumheller Tuesday night at the provincial court house.

The text of the verdict was "that Jacob Tabert came to his death in the Drumheller municipal hospital, in the Province of Alberta, about 7:30 p.m. on Tuesday, February 9, 1937, as a result of injuries received in an accident which occurred in the railway yards of the Canadian Pacific Railway at Carbon, Alberta, on Tuesday, February 9, 1937, at about 10:00 a.m. when the said Jacob Tabert was walking alongside the railway track and slipped and fell underneath a string of eight empty box cars, which were being switched at the time; No blame is attached to anyone, it being our opinion that accident was unavoidable."

Profits From Pastures

With proper fertilizing and grazing management, pastures produce more feed than any other crop.

In Canadian agricultural journals during the past five years, much space has been devoted to the subject of pasture improvement, and farmers are becoming convinced that their grassland areas merit more consideration than they have received in the past.

A pasture properly established and well-managed becomes the most profitable crop on the farm, producing more profit and total digestible nutrients per acre than are contained in any other crop grown.

New Grasses for Grazing

With the introduction of close grazing, plant breeders turned their attention to the creation of new bushy, dwarf-growing strains of timothy, orchard grass, ryegrass, etc., and it is expected that seed of these new types will soon be on the market. Of wild white clover there are several strains, among the best being Kentucky bluegrass, New Zealand, and seeds of both are now obtainable at certain Canadian seed houses.

Many assume that wild white clover and Dutch clover are the same. They are not. Wild white clover is smaller leaved and flowers later than Dutch. The former is persistent whereas Dutch clover seldom lasts more than two years. There is in Canada much native wild clover which, when stimulated into active growth by the aid of suitable fertilizers, will soon make

ANNUAL BONSPIEL GETS UNDER WAY MONDAY; WEATHER GETS WARM

Seventeen Rinks Entered in The Main Competition

The annual bonspiel of the Carbon Curling Club got away to a good start on Monday, February 15th, the first draw commencing at one o'clock in the afternoon.

Seventeen rinks entered in the bonspiel this year, as follows: Yavis, Drumheller; J. C. Smith and W.J. Cormack; Acme; McLean, Gore and Powers; Swallow; Woods, Edwards; Skerry; Greenan, Flaws; Gimbel; MacGregor; Dishaw; L. Poxon; MacGregor and C.H. Smith, of Carbon.

The weather for the bonspiel this year has been quite warm and though the ice was a bit sticky on Monday, it held up fairly well Tuesday, and Wednesday morning, when the Chinese again brought high temperatures. Curling continued in spite of the weather and some fine scores have resulted so far.

The Ladies' Aid of the Carbon United Church has charge of the entire affair at the rink.

The following are the results up to the time of going to press early Wednesday afternoon:

Grand Challenge Event

Yavis defeated MacGregor; McGreggor won from Cormack; Skerry won from Woods; Greenan won from L.C. Smith; Smith won from Greenan; Gimbel won from Powers; Flaws won from Gore; C.H. Smith won from Poxon; Skerry won from MacGregor; J. C. Smith won from Garrett; Gimbel won from Flaws; Dishaw won from C.H. Smith. The semi-finals and final game are yet to be played in this event.

Ottario Laundry Event

J.C. Smith won from L. Poxon; J. C. Smith won from Powers; Cormack won from MacGregor; C.H. Smith won from MacLean; Gimbel won from Gore; Greenan won from Yavis; Flaws won from Woods; Dishaw won from Garrett; Edwards won from Skerry; J.C. Smith won from Cormack; Gimbel won from C.H. Smith; Greenan won from Flaws; Dishaw won from Edwards. In the first semi-final game in this event Greenan won from Dishaw. The other semi-final game in the finals have not been played at three o'clock Wednesday.

BOYS LOSE TO SWALLOW

The Carbon Tuxis boys' hockey team motioned to Swallow on Saturday, February 13, and lost to the Scots 4 to 1, with a goal by a 14 score.

Scorers for Carbon were: R. Lema, T. Poxon, J. J. Gordon, J.

Swallow scorers were: J. Robinson, R. W. Waldron, J. C. Gordon, J. Lema, T. Poxon.

Lineup of teams: Carbon: R. Cameron, R. Lema, J. Greenan, P. Poxon, D. Williamson, A. Knapik, M. MacGregor, B. Heath, J. Gordon.

The return game will be played in Carbon on Friday, February 19.

JACOB TABERT LAID TO REST IN FREUDENTAL CEMETERY, SATURDAY

Resident of Carbon For Past Sixteen Years

Funeral services for the late Jacob Tabert, who met his death last week, when fatally injured at the local C.P.R. yards when struck by flying cars from a switch engine, were held on Saturday, February 13th, from the Carbon United Church. Officiating ministers were Rev. A. Herman and Rev. W.H. McDonald.

Pallbearers were: Messrs. George Phillips, Frederick, William, Walter and Edwin Zeigler. The late Mr. Tabert was born in Kansas 52 years ago and has been a resident of Carbon for the past sixteen years. He is survived by two daughters, Mrs. Otto Norman, and Mrs. O. Hermann, both of Carbon, and five brothers and five sisters. His wife predeceased him about a year ago.

Winter Bros. Funeral Home of Drumheller had charge of funeral arrangements and interment was made in First German Baptist Church Freudental cemetery.

THE WORLD OF WHEAT

B.G.L. Strange

A new variety of wheat is out; Karmin, ten days earlier than Marquis.

This was the news passed from farmer to farmer in 1926 in the northern country of Alberta and Saskatchewan, where Marquis was being caught by early frosts.

Thousands of bushels of Karmin were issued that first year. Last year three million acres were seeded to the new variety.

Soldiers and distributed by Dr. L. H. Newman, and his associates at the Dominion Experimental Farm, Ottawa, the result of a cross between Preston and Riga, made by Charles Saunders in 1905, ten days earlier and somewhat higher yielding than Marquis, almost completely resistant to striking smut or bunt, and throwing a bright red garnet. Garnet soon became a great favourite with northern farmers.

Unfortunately, its milling value is different from Marquis. Canadian millers objected to it. There were a few complaints from abroad, so Garnet was placed into special Garnet grades, or degraded to No. 3 Northern.

Yet the world's millers today pay a relatively high price for Garnet; and pay for No. 3 Northern, which is heavily loaded with Garnet, a higher price in comparison to No. 1 Northern than almost ever before recorded.

Following factors have tended to wheat crop.

Spain purchases Argentine, Australian and Canadian wheat—Drop in price of Argentine corn acreage figures—Dust storms in U.S. outwitted—Green reduced import duties on oats—Estimated exportable surplus of rice from Saigon, Burma and Siam smaller than 1936 shipment by one million tons.

Following factors have tended to wheat crop.

Rain benefit Argentine corn; possible world's millers today pay a relatively high price for Garnet; and pay for No. 3 Northern, which is heavily loaded with Garnet, a higher price in comparison to No. 1 Northern than almost ever before recorded.

Following factors have tended to wheat crop.

SUN LIFE ASSURANCE CO. PRESENTS STRONG FINANCIAL STATEMENT

One of Bright Spots of Insurance and Financial World

MONTREAL, February 7.—With an increase in assets of over seventy million dollars in 1936 and a gross total of more than seven hundred and twenty million dollars, the highest in the Company's history, the Annual Report of the Sun Life Assurance Company of Canada recently released by Arthur R. Wood, President and Managing Director, reveals a statement of principles and of the bright spot of the insurance financial world.

The statement is not only interesting because of its indication of the growth of this company, but also because it establishes beyond doubt the inherent strength and stability of the fundamental principles of life insurance. Since 1929 the assets of the Sun Life of Canada have increased by over two hundred and nine million dollars, and in 1936 of the substantial increase in the assets in force during 1936 over those of 1935, a definite general recovery of insurance conditions cannot be doubted. Of special interest was the announcement by Mr. Wood that participating policyholders would receive seven and one-half per cent of the profits during 1937.

The Sun Life financial statement for 1936 is a strong one, for not only are the assets carried at book values, which, in the aggregate, are well above market value, but there is also an increase of more than ninety million dollars in the bond account since 1935, bringing the total of such account to three hundred and ten million dollars, or approximately forty per cent of the assets of the company. During 1936 profits were made of over thirteen dollars from the operations of investments, shown in the bank amounted to sixteen million dollars. During the past year there has been a substantial increase in the company's investment income over 1935 and the average rate of interest on investments shown an increase for the second consecutive year. The financial statement shows reserves and surplus of over thirty-five million dollars and includes a special contingency reserve of ten million dollars. The total income from all sources has increased to over one hundred and sixty-four million, while disbursements are down, leaving an excess of income over disbursements for 1936 of over sixty million. A feature of the disbursement reveals the undesirable trend in the United States in life insurance companies, in excess of the level being nearly two million dollars during the past financial year.

Spain purchases Argentine, Australian and Canadian wheat—Drop in price of Argentine corn acreage figures—Dust storms in U.S. outwitted—Green reduced import duties on oats—Estimated exportable surplus of rice from Saigon, Burma and Siam smaller than 1936 shipment by one million tons.

Following factors have tended to wheat crop.

TOWN & COUNTRY

Personalographs

Messieurs McNaughton, Graham
and Gilmartin, delegates of the Carbon
Senior W.A., are attending the con-
vention in Calgary this week.

After several days of mild winter
a Chinook wind of gale-like proportions
hit this part of the country on
Wednesday.

Alex Sholsky intends moving his
house from the island to his lot op-
posite Dick Gilmartin's residence, and
the new edifice was started on Wed-
nesday.

Fred Poon received a nasty cut
over his left eye on Monday when
he fell on the curling ice while play-
ing on the Gilmartin rink. Owing to the
rough weather the ice was very slip-
pery and the accident was unavoid-
able.

The Village secretary has issued a
notice in this week's paper to the
effect that all dog owners must pro-
cure their licenses immediately.

Len McConachie, who has been
working at one of the mines during
the winter months, left on Tuesday
for Edmonton, prior to going to the
East, where he will work for the gov-
ernment.

Carbon hockey boys played a team
from Drumheller on Sunday after-
noon.

NOTICE RE: DOG LICENSES

The Secretary-treasurer has received
his supply of dog licenses and owners
of dogs or hounders of dogs are remind-
ed that they must procure their dog
tags immediately. Owners failing to
obtain a license for their dog will be
prosecuted.

ALEX REID,
Sec.-Treas. Village of Carbon

noon at the local rink and the victory
won by a score of 9-4.

—Don't forget the C.G.I.T. Amateur
contest, which will be held in the
Farmers' Exchange Hall on Tuesday,
February 23rd. Entries must be in
by Saturday night.

A cave-in occurred at the Carbon
Black Coals last Thursday and has
halted coal operations at the mine.

A man bought a cheap car.
A few days later a friend asked
him how it was, and he replied: "My
dear chap, I'm just beginning to re-
alize how hard it is to drive a bargain."

Mr. Jones (to landlady): "This
steak tastes mighty funny."
Landlady: "I can't understand it at
all sir. I know I burnt it a bit, but I
rubbed vaseline on it at once."

"I understand that you are looking
for a new maid?"
"Yes, our last one handled China
like Japan."

bring about the time when all shall
receive food, clothing and shelter in
the midst of plenty which would do
away with relief.

Fifth, don't prostitute your birth
right by hitching your wagon to a
star that has long led the common
people to the state they are in today.
Don't be led by egotism and blind con-
fidence. Read again your Marx, George
and Bellamy, whom you have termed
real Christians. There is hope for you
yet to help the world right the injusti-
ces perpetrated by high finance in-
dividuals clothed as sheep, and yet
roaming wolves. International finance
is your pet hobby. It was once, Why
play into their hands now. If S.C.
does find a place, bloody revolu-
tion or wars will be on us in the near
future and we shall lapse into a state
of barbarism. History repeats itself.
All we ask is the privilege of leasing
our own credit, that the Banks and
big Corporations have stolen from us.
No, friend, the Magic pen is not lost.
Consistency, then art a jewel.
In modesty, again subscribing my

TEUTONIC

MAY START REDEMMEING SAVINGS CERTIFICATES

EDMONTON—Redemption of
private savings certificates, payment
of which was suspended by the C.P.A.
government prior to retiring from of-
fice after the August 1935 election,
is receiving consideration from the
government.

Study is being taken, it is learned,
to provide for interest payments on
the certificates in the budget, to-
gether with any action that may be
taken on redemptions.

It is learned that redemption of
certificates in exempt cases is pro-
ceeding at about the same rate as it
has since payment was suspended,
namely at about \$75,000 a month. The
interim financial statement of the gov-
ernment showed that \$75,000 has been
paid out in this respect.

A fashion writer tells us that men's
clothes have more buttons on than
they used to have. And, let us
point out, women's buttons have few-
er clothes on them than they used
to have.

With a pair of skates slung over
his shoulder a young woman entered
a crowded street car. A man rose to
give her his seat.

"Thank you," she said, "but I have
been skating all afternoon."

Barber: "How is the razor, sir?"
Does it go easy?"
Man: "Well, that depends on the
operation. If you're shaving me, it
goes hard, but if you're skinning me,
it goes tolerable easy."

Officer: "Now men, will you fight
or will you run?"
Men: "We will!"

Officer: "Will what?"

Men: "Will not!"

Officer: "Ah, my brave boys I knew
you would."

ONE BILLION DOLLARS

PAID OUT IN BENEFITS BY
SUN LIFE OF CANADA
SINCE FIRST POLICY WAS ISSUED IN 1871

SECURITY WORLD WIDE SERVICE

Another Milestone of Achievement
In public service has been passed by the Company during
1936. Of the many significant features of the Annual
Report, perhaps the most striking is that during sixty-six
years of operation the Sun Life of Canada has paid in bene-
fits to its policyholders and beneficiaries more than One
Billion Dollars.

Features of 1936

ASSURANCES IN FORCE—The increase in assurance
in force reflects the improvement in general busi-
ness conditions.

INTEREST RATE earned on the Company's invest-
ments again increased.

ASSETS of the Company increased by seventy million
dollars in 1936 and are now seven hundred and
seventy-seven million dollars, the highest in the
Company's history.

Dividends to Policyholders
Participating policyholders will share in the Company's
progress by increased dividend payments during 1937.

ASSURANCES IN FORCE, December 31, 1936 — \$2,778,848,087
NEW ASSURANCES PAID FOR — \$12,000,000

INCOME	164,082,000
DISBURSEMENTS	161,940,000
EXCESS OF INCOME OVER DISBURSEMENTS	2,142,000

PAYMENTS TO POLICYHOLDERS AND BENEFICIARIES
During the year 1936 — \$1,477,488,320
Life operations — \$1,444,940,000

ASSETS — \$777,800,000
Fixed assets — \$444,400,000

PAID-UP CAPITAL (\$2,000,000) and
\$1,000,000 — \$3,000,000

RESERVE — \$778,000,000
Contingency Reserve — \$1,000,000
Surplus — \$277,800,000

Securities are carried in the balance sheet at book value which in
the aggregate are lower than market value.

"Just Average Folks"

There are no mysterious "fifty big shots" crushing the
detestable of Alberta.

The bond and mortgage holders of this Province are just
average folks—just such neighbourly people as you deal with
every day—people who have hood their way successfully, put
by a little savings from year to year and tried to invest these
savings securely, thus creating nest eggs for their old age.

The \$382,000,000 invested by life insurance companies in
city and farm mortgages in Canada are the savings of 3,500,000
policyholders. In the same way, other hundreds of millions
held in mortgages by banking companies are the savings of
scores of thousands of shareholders and debenture holders—
\$70,000,000 of mortgage holdings of one such company alone
representing the savings of between fifty and sixty thousand
persons of average means.

In Canada, it is the people of such average means who pro-
vide the funds which are invested in bonds and mortgages in
Alberta and other provinces.

This statement is one of a series written by The Mortgage Loans
Association of the Province of Alberta. The Association is
composed of 34 member companies. It represents hundreds of
thousands of small investments by typical Canadians. It loans
to citizens of Alberta amounts to some forty-five million dollars.
(The seventh statement in this series will be published in two weeks)

PARRISH & HEIMBECKER LTD.

Grain Receivers, Shippers and Exporters

Any day a FISH DAY

A Healthful, Tasty and Economical
Food for Any Day in the Week

TUESDAY, Wednesday, Thursday or Friday . . .
any day can be Fish Day . . . when you realize
just how healthful, tasty and economical Canadian
Fish and Shellfish can be. Healthy, because of
their rich store of proteins, vitamins and minerals,
iodine and other elements. Easy, because of
their easily digested and finely-flavoured meat.
Economical, because Fish gives you full value in
nourishment for every cent spent.

Serve Canadian Fish and Shellfish more often.
Whatever way is most convenient . . . fresh, frozen,
canned, smoked, pickled or dried . . . you get
nourishment in its most delightful form . . . in
prime condition from sea, lake or river, to your
table.

KIPPERED HERRING
SCALLOP

Take one Canadian kip-
pered herring in small pieces. In
buttered lake dish set alternate
layers of cooked potatoes, fish
and cheese, varying spices
between the layers. Add season-
ing to one cup of milk and pour
over the scallop. Cover with
battered crumbs and bake until
done.
